

Intake sheet - Application Nozzles

Date:	Reference:
Name:	Company:
Tel nr:	Email:

Please fill out the form as completely as possible:

Describe the process where the nozzles will be used:
--

What are you trying to accomplish with the spray? (e.g. cool a gas, wet a surface)
--

What liquid is being sprayed?	What is the required material of construction?
What is the maximum available liquid pressure?	Temperature of liquid and surrounding area?
What is the total required liquid rate or rate per nozzle?	What size and type of connection is required? (e.g. 1/4" BSP thread)
What is the required spray angle or coverage?	Are there corrosive conditions present?
Are there any particles present in the liquid? Size?	What is the liquid's specific gravity and viscosity (Pa·s)?
